

## Skills:

Mobile	Front-End	Back-end	Database	Languages	UI / UX	Version Control
Android SDK	HTML	Node.Js	MongoDB	Javascript	Figma	Git
Android Studio	CSS	Firebase	Firestore	Typescript	Adobe Suite	Github
	Bootstrap			Java		
	React					

## Projects:

### Money Tracker

It's a simple CRUD Android Application that keeps Track of the user's income and expense. The user's data is stored in the cloud using firebase. It also displays the data in a Donut Chart for the user to analyze has option to download the data and load it into a spreadsheet software.

### New age Ticketing System

An Application that can be used to buy tickets for the public bus through internet and can be used to track the location of buses. It also uses a penalty system to monitor and ensure the quality of transport. Made this as my undergraduate project.
